School Facilities Referendum

Election Day: April 4, 2017

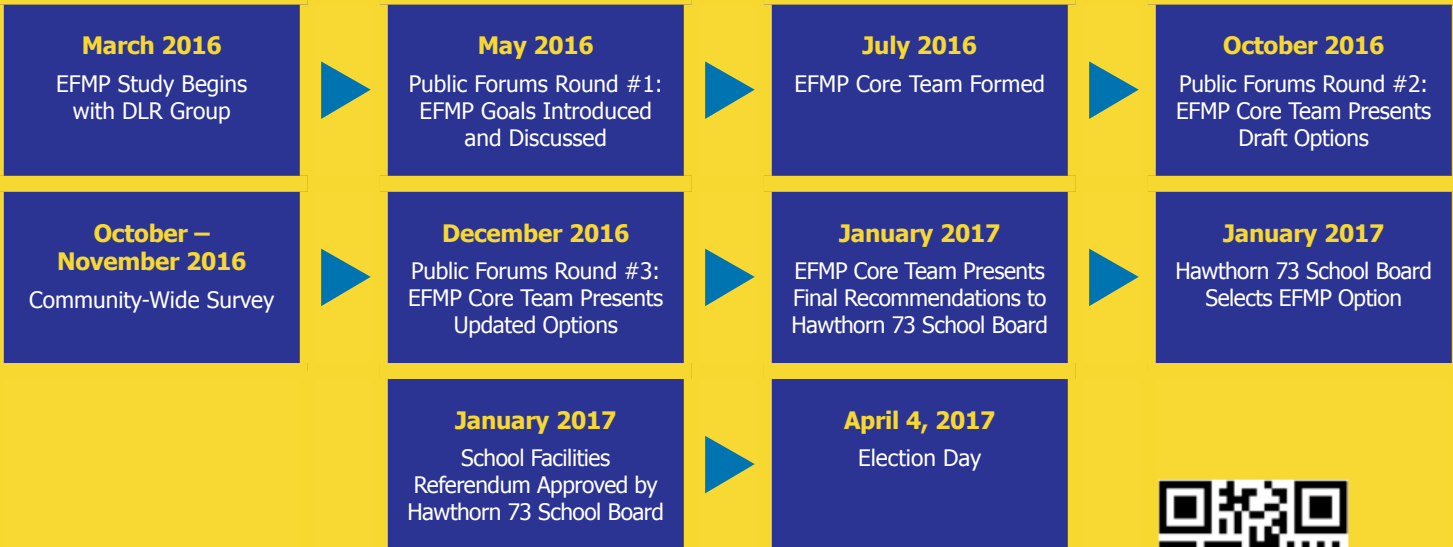

Quick Facts About the Hawthorn 73 Educational Facilities Master Plan (EFMP):

- ★ **10-year facilities plan** to support the district’s growth and long-term strategic plan
- ★ **Solves all space needs** based on projected enrollment growth
- ★ **700 additional students** projected over the next ten years
- ★ **25:1 student-teacher ratio** maintained at the elementary school level
- ★ **Additions/renovations at all schools** to accommodate current needs and future growth
- ★ **Purchase of 11.8-acre site** across from Elementary South to provide useable outdoor space and accommodate future growth
- ★ **2,500 combined hours of work** by the Core Team that developed the EFMP
- ★ **3 community forums** with 250+ stakeholders attending each session
- ★ **School Board voted in January 2017** to place a question on the April 4, 2017 ballot that will ask voters to approve \$42 million in school facilities funding based on the results of the EFMP

How was the Hawthorn 73 Educational Facilities Master Plan (EFMP) developed?

The EFMP is a 10-year facilities plan to support the district's growth. It was developed by a Core Team of community members, parents, staff, and administration. The Core Team collaborated with DLR Group, a nationally leading architecture firm, to assess the district's needs and proposed recommended options for the future of the district to the Hawthorn 73 School Board.
