

Help give children the early intervention they need to succeed.

Hawthorn School District 73 is looking for volunteers to help screen local children between the ages of newborn and 3 to determine their eligibility for early intervention services.

Volunteers will be trained for screening in partnership with Cook Memorial Public Library District staff. The first screenings will take place in April of 2018.

For more information, please contact Jessica Flores at: 847-990-4513.

Early intervention services can make a real difference in enhancing a child's learning and development.
